December 8, 2020

Dear Neighbor:

I write today to ask for your urgent help.

McGregor Ambulance has seen numerous historical events in its 52-year history but rarely has one so directly impacted our mission. Throughout the COVID-19 pandemic we have remained available, fulfilling our around-the-clock mission of providing 911 ambulance services to the community. Our volunteers have risen to the challenge, giving a record amount of their time (over 36,000 hours) to ensure continuous ambulance coverage despite the increased risk to their health and safety.

We have also taken steps to ensure continued safety for our patients through strict adherence to PPE protocols, upgrades to our ambulances, extensive decontamination, and even “quarantining” ambulances after certain highly contaminating procedures.

This focus on safety for our patients, volunteers, and staff has come at a high cost to McGregor, while the revenue used to support our operations has decreased by 25%. In addition, safety issues identified with our previous station (rented from the University) at the end of 2019, coupled with the need for social distancing between calls, necessitated an emergency move to a larger space across campus. This resulted in additional unexpected costs when resources were already strained.

I ask today for your help to support our dedicated volunteers and staff who continue to provide services under these difficult circumstances. Your contribution will help to defray the considerable expenses created by the pandemic.

McGregor is ready to respond – to your home, an accident scene, places of work, or wherever you may need us. You can count on us to be there! To help us during this crucial time, please consider a generous donation today!

Thank you,

Chris Lemelin

Practicing with PPE including a “CAPR” which provides reusable N95 level mask protection through a clear shield.
